To whom it may concern,

Pacy & Wheatley Ltd were appointed as Main Contractor in November 2019 under a JCT Design & Build Contract following a very competitive tender and due diligence process by ourselves to carry out a new 11000 sq ft warehouse extension. This also included; alterations and upgrades to the existing manufacturing facility including mechanical and electrical services and associated external concrete yards, drainage and landscaping works.

The tender documents, detail and clarity of return they provided and on-site safety record was very impressive and a major factor in our client's final choice of main contractor for the scheme.

We found their culture and team ethos ensured all parties worked in a collaborative manner, thereby allowing the employers day to day operations on the 'live' site to continue unaffected and remain efficient and the programme to be maintained. Pacy & Wheatley Ltd remained professional, positive, and proactive throughout.

At all times there is a clear line of structure and ownership with open and honest communication at all levels.

All works have been completed to a good quality & high standard, on time and within budget.

We have no hesitation in returning to Pacy & Wheatley Ltd for further works opportunities and tenders.

They have a flexible, open and honest approach and it's been a pleasure to work with them in these times.

Richard Pierpoint
